[Cunning Drift] If you want a range +15% (I don't think many of the "drift" mods are worth a bit of footage as they give you a marginal increase in statistics but you lose the utility other choices). [Mobilize] A is a great option for 5 points, offering bullet jump power increased by 20% and glide duration. I like [Feet prepared] but Aε as a 1000-day access or something and can' be out [door] for new players. [Preparation] A is a compelling option not to have to build your energy, but actually You won't need it. Options: give [Saryn] the violation of [Wisps] A is something I have had good results with. The blind lucider more' your damage, give you double Proc on spore damage and will help you enemies. Radiation Procs from Breach Surge will also add another layer of DC, though in reality it is not what is important. Offering his roar A is absolutely an option, you will butcher the fastest crowd! A is a compelling option for Reset Gate Shield Quick Shield loadout, primary. I use the Kuva Bramma or Zarr, both of which are great aoe weapons. Kuva Nikor or Gaze Kitgun with Haymaker and Splat Partsmelee. Damn close to anything, I run the [glaiive prime]. Once you've finished maxing this build, check out my personal build with ombral and aura form included! Personally, I think it's the final form of [Saryn]! A © 2022 Magicfind, Inc.
